**Subject:** EtO comms material examples from Colorado/Terumo facility  
**Attachments:** Ethylene Oxide Community Guide.pdf

Hi all, thanks again for the time and discussion this morning. As a follow up, sharing the info, including risk assessment, for Lakewood, Colorado Terumo linked here <https://cdphe.colorado.gov/public-information/ethylene-oxide-and-terumo-bct> and community guide attached in case useful. Please share with others I may have missed.

Also, EPA: <https://www.epa.gov/hazardous-air-pollutants-ethylene-oxide>

I will follow up with some draft outreach/invite messaging for our planned meeting next week.
